Osnabrück University of Applied Sciences
- The Election Officer –

Osnabrück, 13 November 2026

Election Announcement

All members of the university are invited to cast their votes in the elections for the

Senate and for the **faculty councils** and the **institute council**.

I. The election will take place online (electronic voting) from

Monday, 23 November 2026, 08:00 a.m.

until

Monday, 07 December 2026, 08:00 a.m.

The election portal will be open for voting during this period and can be accessed via the link **https://vote.hs-osnabrueck.de/**. You will need your Campus card to log in to the election portal.

The electronic vote must be cast **personally** and **unobserved**; voters have to confirm this electronically when they vote.

II. Alternatively, electronic voting is also possible during the voting period in accordance with Section 21(7) of the Osnabrück University of Applied Sciences Election Regulations (hereinafter: WahlO) during the following opening hours at the ServiceDesk (Building AB, Albrechtstr. 30, 49076 Osnabrück, Room AB 0101A) on a computer provided there:
Monday – Thursday: 8:00 am till 12:00 pm / 1:00 pm till 5 pm
Friday: 08:00 am till 2:00 pm

III. In accordance with Section 23(8), first sentence, of the WahlO, the Electoral Officer draws attention to appropriate security measures as follows:

The security of your device (PC, laptop, smartphone) is essential for safeguarding the secrecy of the ballot. Please observe the following basic security measures before voting:

- **System updates** – Ensure that your operating system and web browser are up-to-date and that all current security patches are installed.
- **Malware protection** – Run an active, up-to-date antivirus program and keep the firewall enabled to prevent trojans or viruses that could read your inputs (e.g. Microsoft Defender, the built-in Windows component; or the free avast.com scanner). Devices managed by the IT Service Centre (ITSC) are already protected by the SentinelOne agent and need no additional software.
- **Secure connection (HTTPS)** – Verify that the voting portal is accessed via an encrypted connection (look for the lock symbol and the “https://” prefix in the address bar).
- **Phishing awareness** – Open the voting-platform link **only** from the official invitation. Never enter your login credentials on third-party sites.
- **No public networks** – Do **not** use an unencrypted public Wi-Fi (e.g. a café). Use a trusted, password-protected network instead.
- **Unobserved voting** – Make sure nobody can see your screen while you vote, to preserve ballot secrecy.

Please also consult the Federal Office for Information Security's advice on "Secure Use of the Internet" (German: „Sichere Nutzung des Internets"):

https://www.bsi.bund.de/DE/Themen/Verbraucherinnen-und-Verbraucher/Informationen-und-Empfehlungen/Cyber-Sicherheitsempfehlungen/Basisschutz-fuer-Computer-Mobilgeraete/basisschutz-fuer-computer-mobilgeraete_node.html

Acknowledgement of these security instructions must be confirmed electronically **before** voting, as required by § 23 (8) sentence 2 WahlO.

IV. If several list nominations **and** individual nominations are present for a voting unit, the election follows the principles of **personalized proportional representation** (list voting combined with individual candidate voting). In list voting, voters have only one vote.

Majority voting applies when **only individual nominations** or **only one list nomination** are present. In a **majority-vote election**, as many candidates may be elected as there are seats for that group; **multiple votes for the same candidate** are **not allowed**. Further details are contained in §§ 2, 17 – 21 WahlO.

The full Election Regulations of Osnabrück University of Applied Sciences are available in the electronic official gazette on the Osnabrück University of Applied Sciences website: (Wahlordnung der Hochschule).
