

Becoming global - Opportunities and challenges of international learning scenarios

Julia Blandfort

Anne Nadolny
Dirk Hoffmann

Pilar Alberola Colomar

Oscar Vasco-Echeverri

Languages of the workshop

- Bilingual
 - Slides and presentation - English
 - Group work - English or German – Feel comfortable!
 - Results & Questions: English or German
 - Discussion - English

Experiences international teaching

- Have you experiences with international teaching?
 - Please use the survey in the video conference system
 - A: None
 - B: Little
 - C: Many

Internationalisation and universities

- Labour market requires international cooperation skills
- The majority of the student body is not internationally mobile
- Consequence: lack of key intercultural skills

Two projects to booster internationalisation

Future Skills.Applied – Global classroom (Jade Hochschule)

- Expand international study programmes
- Establish contact with interested teachers
- Advise on planning and implementation
- Identify problems and doubts among students and teachers
- Propose solutions
- Test different formats (synchronous, asynchronous, hybrid)
- Communicate methodology and didactics of international digital teaching
- Internationalisation at home

Two projects to booster internationalisation

international

- Partner universities
- Mobility of students and teachers
- Digital communication

interdisciplinary

- Different academic disciplines
- Cooperation with broad field of industrial partners

innovative

- Conceptual design
- Teaching methods, e.g. design thinking
- Digital teaching formats

Workshop

„Benefits from a virtual international exchange project are to expand one’s perception and to think more outside of the box.“

- What is the basis for international work?
- *Was ist die Basis für internationales Arbeiten?*

- What is necessary for successful international teaching?
- Was ist notwendig für erfolgreiche internationale Lehre?

- What are challenges for international teaching-learning scenarios?
- Was sind die Herausforderungen für internationale Lehr-/Lernszenarien?

„Benefits from a virtual international exchange project are to expand one’s perception and to think more outside of the box.“

- What is the basis for international work?
- What is necessary for successful international teaching?
- What are challenges for international teaching-learning scenarios?

Results & Discussion

Experiences in international teaching events (VIC)

VIRTUAL INTERCULTURAL COMMUNICATION

- Working on interculturality with students from different nationalities & backgrounds.
- Two virtual exchanges 2021 and 2022.
- Universities: Jade University of Applied Sciences + Florida Universitaria.
- VIC integrated in subjects.
- Assessment.

PARTICIPANTS

Nationalities: 12+11

No. Students: 32+37

Degrees: Engineering,
Business+ Tourism

TOPICS

Topics: Multiculturalism,
stereotypes + negotiations

Experiences in international teaching events (VIC)

VIRTUAL INTERCULTURAL COMMUNICATION

BENEFITS

- Promotes diversity in online classroom.
- Enhances internationalization at home.
- Allows groups, previously excluded, to gain international experiences.
- Students liked meeting people from other nationalities.
- Students considered the experience enriching and motivating.

CHALLENGES

- Organization: Difficulty to find similar modules, timetable,..
- Technical problems: connection, noise.
- Students: Better preparation
More time
Language barrier
Age & experience differences

Experiences in international teaching events: LABi³

PHOTOBOOK PROJECT 2022

Concept: Adapted to students' suggestions of former event 2021

Where does sustainable circular economy exist in your surroundings?

Students illustrate examples with photos/graphics and texts

6 universities - 7 topics

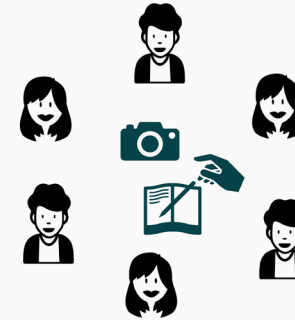

2 Coaches

Help with communication and group work

9 Teachers

Content-related supervision

32 Students

Mixed international groups

Online group work

Joint online work/events

Experiences in international teaching events: LABi³

PHOTOBOOK PROJECT 2022

BENEFITS

- Communication language improvement
- Getting familiar with digital formats/tools
- Different methods
- Different perspectives of topics

CHALLENGES

- Local credits
- Time management (Time zones + semester times)
- Communication
- Keep the motivation
