

Corona Virus Update | Current Information E-Mail to Students of Osnabrück University of Applied Sciences, Thursday, June 4th, 2020

Dear Students,

we hope you had a relaxing Pentecost weekend. This week, as announced, we would like to share with you our first thoughts regarding the winter semester. But we would also like to remind you of the obligation to wear protective face masks and to keep your distance to fellow students, teachers and employees of the university at all times.

This week's topics:

Plans for winter semester 2020/21

On May 20th, the universities of applied sciences in Lower Saxony have agreed to delay the beginning of all classes in the upcoming winter semester to October 5th, 2020 (2 weeks later than usual).

Due to this delay, all further semester dates have to be delayed accordingly. The same will be true for all significant dates and times in the summer semester 2021. In order to have a look at the new dates and deadlines for the coming two semester, please see <https://osca.hs-osnabrueck.de/Wikibereich/Studium%20und%20Lehre%20%C2%B0/13%20Coronakrise%20-%20Informationen%20zu%20Studium%20und%20Lehre/Planungsgrundlagen%20f%C3%BCr%20das%20Wintersemester%202020-2021.aspx>

And again:

Just before the start of the exam period, we would like to remind you of the obligation to wear masks and to abide by hygienic rules on the premises of Osnabrück University of Applied Sciences. All details and our binding rules can be found at <https://www.hs-osnabrueck.de/en/corona/>. Without their masks, students will not be allowed to participate in exams or lab classes.

This week's music video will take you into the world of classical music and into the flute class lead by Ralph Töpsch. On his clip, Ralph writes: "Even this extraordinary time could not keep our students from putting up a class project together. Lene Nelles, Marie Leinpinsel, Laura Katrin Möhlenkamp, Anja Kadell, Marina Zambon-Gambini, Annika Sabrowski, Emely Fee Wolters and Nadja Geppert show in an impressive way that the passion to produce music together with others can even overcome the technical barriers the internet presents." <https://youtu.be/-MjF9FkiOB8>

We wish you all a good rest of the week and a wonderful weekend.

Your University Steering Committee
